Subject: Air Emissions Compliance Test Results  
Prudhoe Bay, Alaska Oil Field Facilities  
Permit Nos. PSD-X80-09 & PSD-X81-01  
AQC 8436-AA007, AQC 8536-AA003, AQC 8536-AA006

Dear Sirs:

Please find a copy of the air compliance tests performed during 1985 for the Prudhoe Bay Unit Oil Field Facilities. These tests included a 7,700 HP Suzler Turbine at Gathering Center 2, a 29,100 HP Cooper Rolls Turbine and a combine system 320 MM BTU/hr Econotherm Heater at the Seawater Injection Plant West in the western operating area. The tests in the eastern operating area included a 67.2 MM BTU/hr Broach Heater, a 29,100 HP Cooper Rolls Turbine and a combined system 200 MM BTU/hr Econotherm Heater at the Seawater Injection Plant East. These units were tested by Petro Chem Environmental Services from September 3rd through 5th of 1985.

If you have any questions on this report, please contact us (Lynn (907) 564-5026 or Jim (907) 263-4307).

Sincerely,

  
Lynn Billington  
Sohio Alaska Petroleum Co.

  
Jim Ives
